Subject: RE: Agenda for June 6th Meetings
Attachments: RE: Red Hill AOC - Destructive testing

Hi Lyndsey,

Apologies for the delay. We are developing a draft agenda and will be sure to circulate. I believe Mark sent out the general items; however, we're developing a more detailed agenda. We'll keep you posted. Thanks!

FYI - the below that was sent out is just for the AOC Parties/SME portion. Following this AM session, there will be an agenda for the EPA/DOH/Navy technical working group for the PM session.

- (1) EV TUA Tech Memo Update
 - Framework of EV Technical Memorandum
 - Monitored natural attenuation
 - Hypothetical Conservative Scenario Evaluations: Low- and High-End Scenarios Assuming Hypothetical LNAPL Releases Impact Groundwater
- (2) Westbay System for Monitoring Well Installations
- (3) AOC Update (about a 15 min update with Q&A following) primarily addressing.
 - Section 3 TUA status
 - Section 4 Release Detection
 - Section 5 Destructive Testing

V/R,
Tracy Saguibo

Subject: [Non-DoD Source] Agenda for June 6th Meetings

Hi Tracy,

We are wondering when you anticipate there will be agenda available for the upcoming June in-person meetings? Mark also mentioned that you all were working on getting invites out to SME's, it would be great if you kept us in the loop about when those go out as well.

Thanks!

Lyndsey Tu
